# Introduction

Supporting Colleges to Streamline Administration Processes and Manage Commercial Income Channels.

- **Student Income Management Software**
- **Commercial Income and Booking Software**
- **Student/Customer Alerts and Communications**

WisePay Software Services is a leading supplier and trusted partner of Colleges and Higher Education establishments across the UK, in parts of Ireland and in Europe.

We provide a suite of integrated services specifically designed to automate administration processes that save time and reduce costs.

We would like to work closely with your college too.

# Student income management software

## Cashless Catering

A one-stop service, providing tills, portable tablets, FSM Services, and integrated online top-ups. Includes text and email alerts.

## Educational Trip Management

Easily manage all trips effectively in one place. This includes variable payments, deposits, bursaries, instalment payments and zero payment options.

## Exam Payments

This Service allows students to make exam and re-sit payments online, 24/7.

WisePay can also integrate with a school or college exam database so that student results can be displayed directly and securely to the Wise Account

## Bursary Management

Colleges can manage bursary funding for kits, additional activities and books that are particular to a course. Assistance may also be given for transport.

WisePay software – rich in functionality, easy to use, robust, secure and trusted.

## Travel Payments

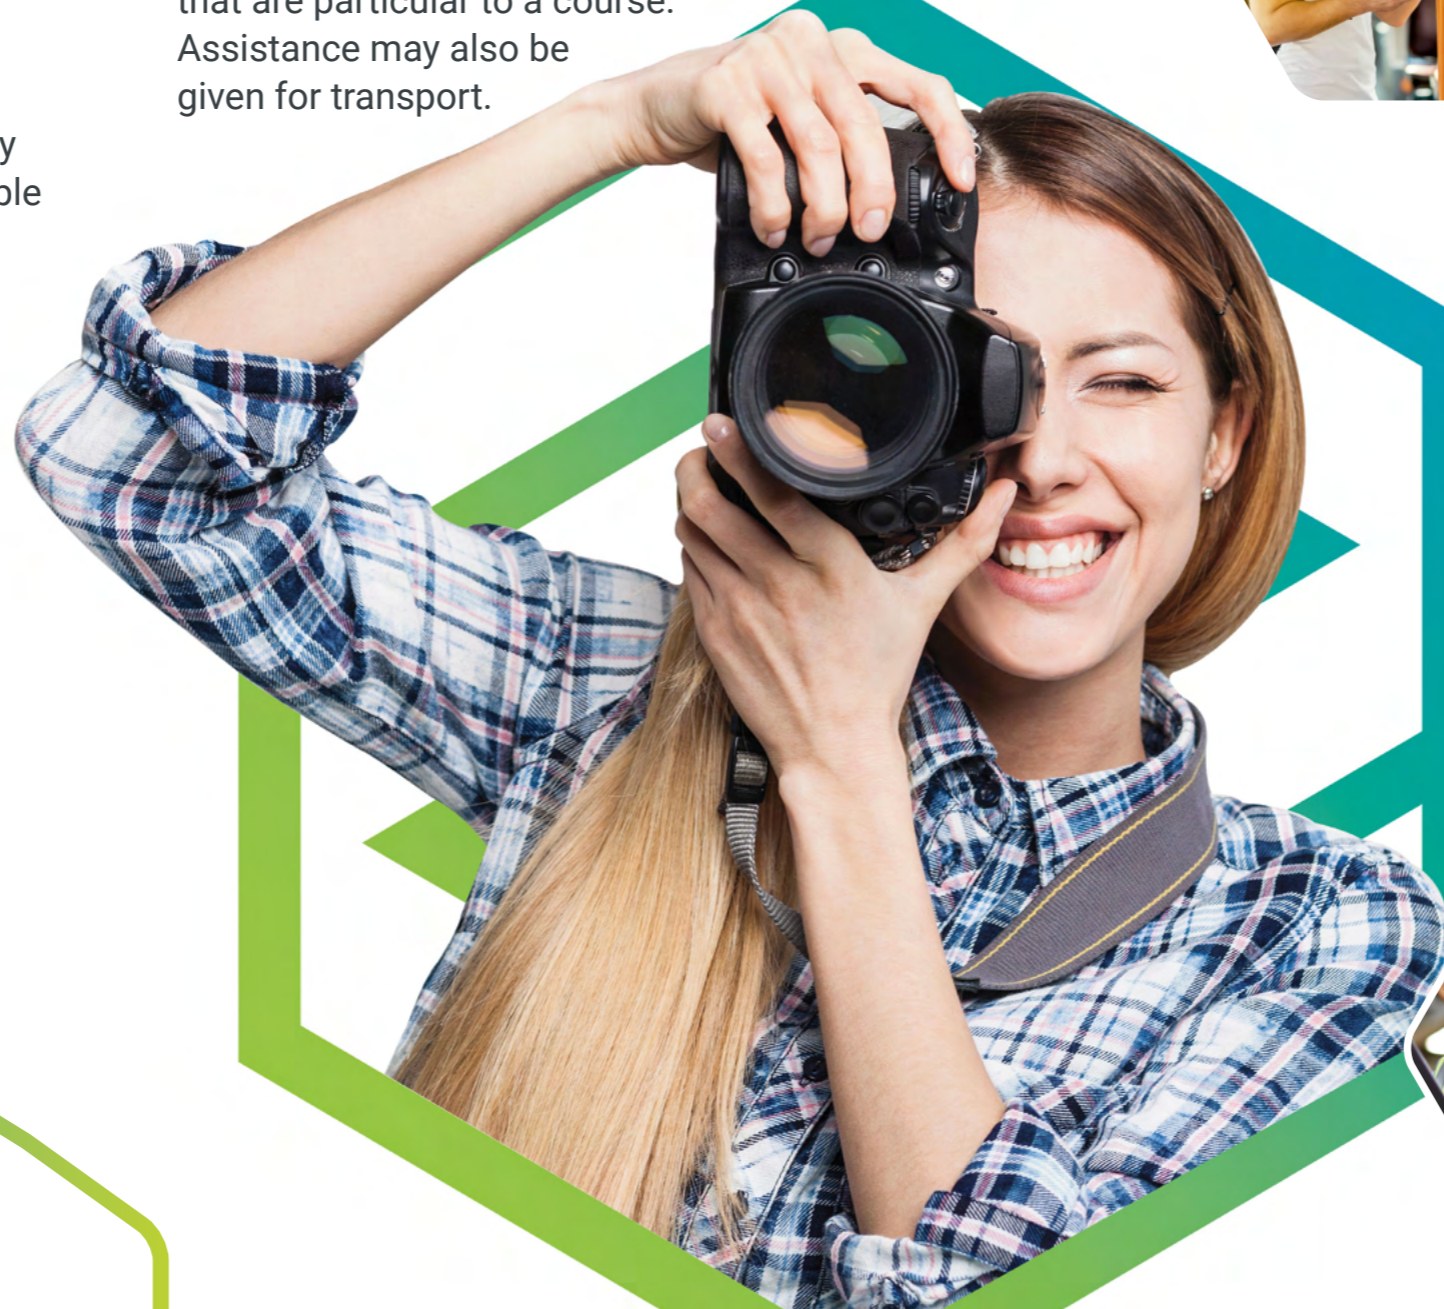

Whatever functionality your organisation requires, such as bus, rail or taxi travel, WisePay has a service which will be able to meet your requirements.

## Printing and Photocopying Top Ups

Touch card printers controlled by college ID cards can be topped up for students, cutting queues and easy access across multiple devices at your college.

## General Products

This service is used as a place where ad hoc items can be sold. This service is also used as a prelude for shop items when there are only a few items for sale.

# Commercial income and bookings software

## Sports and Facilities Bookings

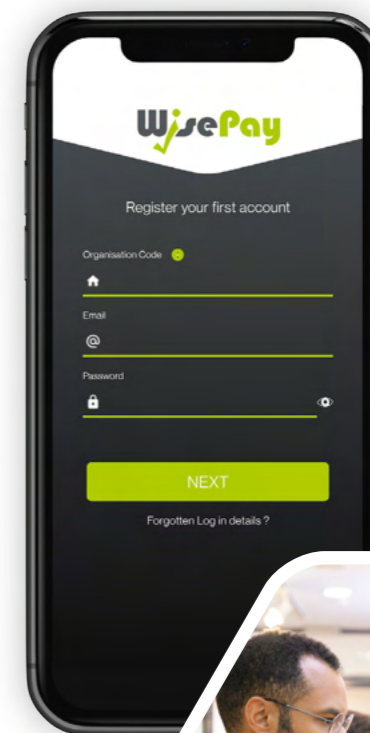

Manage the lettings and bookings of your community leisure space. Use as a stand-alone booking system or as part of your wider WisePay solution.

## Ticket, Seating and Theatre Bookings

An interactive seat booking system designed for not just any venue, but your venue. Plan your event, conference or production to a tee.

## Course and Adult Education Payments

Adult and community courses can be booked and paid for through our courses booking module. Conference rooms, IT classes and large halls can also be booked using our online calendar, giving users flexibility on times and dates, while reducing the risk of double bookings for colleges.

# Alerts and communications software

## Emailing and Texting

Texting via SMS is the most effective way to reach students quickly with key pieces of information and news whilst email is perfect for more elaborate communications.

## Consent and Forms Management

Collect Information and consent forms from students and parents and manage centrally in a single source.

Colleges can always be confident that WisePay will deliver, as their individual needs change and grow.

# All reporting is in real time

**WisePay provides our colleges with detailed, real time finance and booking reports.**

Payments can be made online, or an invoice can be raised for commercial customers. If a college chooses, this can also be paid online.

WisePay's software manages multiple accounting codes and students are identified by the college student IDs.

This ensures that all payments and bookings received from our colleges are always associated with both the correct student and finance code instantly.

WisePay - supporting colleges and students in a busy world.

## Keeping it simple

Our colleges can use one, several or any combination of software from the WisePay portfolio.

Student payments, commercial income, consent forms, and debt collection - are all streamlined, keeping it simple.

## Payments and bookings on the move

We all live in a busy world and being able to make a payment whilst on the move or making a booking whilst out and about is very important. Additionally, being able to top up a meal payment, purchase a travel pass or checking your account whilst on the go is not only convenient but makes good use of time.

# Comprehensive management information

Real time reporting, easy reconciliation, full audit trails, detailed finance reports and booking information is always available to the appropriate college staff when they need it.

College leadership teams have access to real time management information and can use this to make decisions quickly - for example to decide if a short course is viable to run based on the booking and payment information available to them in WisePay.

Built in Smart-Communications for emailing and texting allows a college to communicate targeted information with the appropriate students.

Small, manageable chunks **that make a big difference.**

# WisePay APIs and automatic synchronisation tools mean **integrating with 3rd party software is easy**

WisePay has a library of APIs that our colleges can use.

This allows WisePay to integrate with any college finance software and. Therefore, as well having access to WisePay's standard suite of financial reports, we can also create bespoke finance reports should an individual college require them.

Additionally, WisePay software automatically synchronises with all leading student databases. This means that when a student joins a college or moves to a different year or course, the same data automatically synchronises with WisePay's software to create information records.

Automatic synchronisation with student databases and finance software.

# Protecting personal data

Protecting personal data is very important to WisePay and we take it very seriously. Our company is registered under the Data Protection Act.

Our data centre used for our servers are ISO27001 accredited. This is the highest international standard for information security.

# Safe and secure, proven and trusted

**WisePay is PCI-DSS compliant** and all payments are processed at Level 1 Security which is the highest level of compliance.

We are regularly and comprehensively assessed by third party auditors who are certified directly by the PCI Security Council.

## Working with a range of banking partners to get the most competitive rates for our colleges

Depending on whether a college takes domestic payments only or a combination of domestic and multiple currencies, WisePay can provide competitive rates on behalf of our colleges.

WisePay manages both domestic and international payments.

## Comprehensive on-site training

Implementing new systems and processes can sometimes be a little daunting for staff. Also, it is important that all people involved have a clear understanding of why change is taking place and their role in that change.

Therefore, WisePay provides comprehensive on-site training on all our services. We have extremely experienced trainers who not only deliver first-class training sessions but can also advise and suggest best practice based on their hands-on knowledge.

## Supporting colleges

WisePay's Support Team are extremely knowledgeable and experienced.

They are always on-hand to help our colleges. Our Support Team are friendly and helpful and work closely with our customers to provide advice, as and when they need it.

## Getting started is easy

Sometimes change can be difficult. However, at WisePay we believe that small manageable chunks can make a big difference.

Colleges simply choose the WisePay Service they need, when they need it. Our colleges often only start with one or perhaps two services and add others as they see the benefits.

Hand-holding our colleges during implementation and providing support all the way.

# Can we share our knowledge, experience and software with your college?

Our company has over 20 years of experience helping organisations and colleges to digitise their administration processes, to make them more efficient and providing a better experience for their parents, customers and sponsors.

## Would you like to see a demonstration?

We would love to speak with you and understand what your college would like to achieve. We can show you demonstrations, discuss case studies and provide suggestions and advice. If you would like to book such a meeting please contact us via our website: [www.wisepay-software.com](http://www.wisepay-software.com)
