WisePay

Tailored solutions for Independent and Prep Schools

CONTENTS

Introduction

Supporting Independent Schools to Streamline
Administration Processes and Manage Commercial
Income Channels.

- **Student Income Management Software**
- **Commercial Income and Bookings Software**
- **Alerts and Communications Software**

WisePay is a leading supplier and trusted partner of
independent schools across the UK. We also work
closely with international schools outside of the UK.
We help our schools to process all domestic and
international income, to manage their registration
processes and to promote the bookings of their
facilities and enterprise businesses.

05

Student income management software

Intelligent and Trusted Software, with Market Leading Functionality

Catering Payments
A one-stop service, providing tills, portable tablets, FSM Services, and integrated online top-ups. Includes text and email alerts.

Educational Trip Management
Easily manage all trips effectively in one place. This includes variable payments, deposits, bursaries, instalment payments and zero payment options.

Holiday Activity Bookings
Ensure all holiday activities and corresponding payments are carefully managed.

General Payment Management
From boarding essentials and equipment to extra and co-curricular activities, payments and bookings can be set up easily.

Uniform Fitting Booking Service
From uniforms to sports kits and equipment, or tailored fittings, these can all be set up with our uniform fitting and bookings service.

Before and After Clubs and Wrap Around Care
Spaces can be booked, reserved and paid for through multiple payment options.

Admission Fees and Charges
A simple and convenient way of paying school fees or additional charges. Parents can receive a termly bill/yearly invoice which will provide details of the amounts due. A variety of payment options can be set up for easy payment collection.
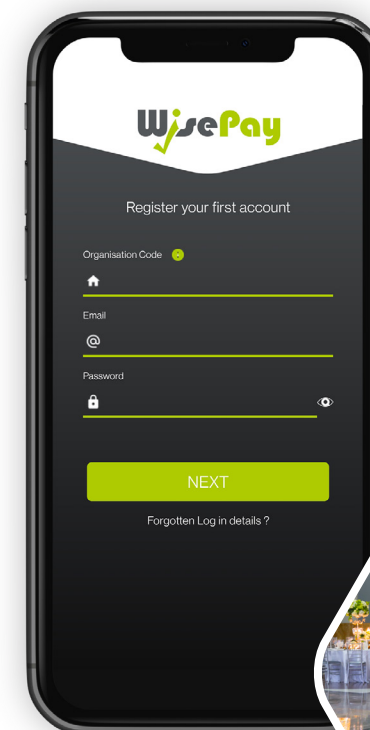

07

Commercial income and bookings software

Sports and Facilities Bookings
Manage the lettings and bookings of your community leisure space. Use as a stand-alone booking system or as part of your WisePay solution.

Ticket, Seating and Theatre Bookings
An interactive seat booking system designed for not just any venue, but your venue. Plan your event, conference or production to a tee.

Hospitality and Events Bookings
Weddings, outdoor spaces and dining halls can be set up for online reservations and bookings.

Course and Corporate Bookings
Online bookings can be set up for conference rooms with IT equipment, classrooms and large halls.

09

Alerts and communications software

Emailing and Texting
Texting via SMS is the most effective way to reach parents quickly with key pieces of information and news whilst email is perfect for more elaborate communications.

Consent and Forms Management
Collect Information and Consents from Students and Parents and manage centrally in a single source.

Schools can always be confident that WisePay will deliver, as their individual needs change and grow.

All reporting is in real time

WisePay provides schools with detailed, real time finance and booking reports.

Payments can be made online, or an invoice can be raised for commercial customers. If a school chooses, this can also be paid online.

WisePay's software manages multiple accounting codes and students are identified by the school's student IDs.

This ensures that all payments and bookings received from our schools are always associated with both the correct student and finance code instantly.

WisePay - supporting schools and parents in a busy world.

11

Keeping it simple

Our independent and prep schools can use one, several or any combination of software from the WisePay portfolio.

Student payments, commercial income, consent forms, and debt collection - are all streamlined, keeping it simple.

Payments and bookings on the move

We all live in a busy world and being able to make a payment whilst on the move or making a booking whilst out and about is very important. Additionally, being able to top up a meal payment, purchase a travel pass or checking your account whilst on the go is not only convenient but makes good use of time.

Comprehensive management information

Real time reporting, easy reconciliation, full audit trails, detailed finance reports and booking information is always available to the appropriate school staff when they need it.

School leadership teams have access to real time management information and can use this to make decisions quickly - for example to decide if a short course is viable to run based on the booking and payment information available to them in WisePay.

Built in Smart-Communications for emailing and texting allows a school to communicate targeted information with the appropriate students.

Small, manageable chunks **that make a big difference.**

WisePay APIs and automatic synchronisation tools mean **integrating with 3rd party software is easy**

WisePay has a library of APIs that our independent schools can use.

This allows WisePay to integrate with any schools finance software. Therefore, as well having access to WisePay's standard suite of financial reports, we can also create bespoke finance reports should an individual school require them.

Additionally, WisePay software automatically synchronises with all leading student databases. This means that when a student joins a school or moves to a different year, the same data automatically synchronises with WisePay's software to create information records.

Automatic synchronisation with student databases and finance software.

17

Protecting personal data

Protecting personal data is very important to WisePay and we take it very seriously. Our company is registered under the Data Protection Act.

Our data centre used for our servers are ISO27001 accredited. This is the highest international standard for information security.

Safe and secure, proven **and trusted**

WisePay is PCI-DSS compliant and all payments are processed at Level 1 Security which is the highest level of compliance.

We are regularly and comprehensively assessed by third-party auditors who are certified directly by the PCI Security Council.

19

Working with a range of banking partners to get the most competitive rates for our schools.

WisePay has relationships with most major banks. Therefore, depending on whether your school takes domestic payments only or a combination of domestic and international payments, we can negotiate competitive rates on behalf of our schools.

WisePay manages both domestic and international payments.

Does your school need both domestic and international payment options?

As well as domestic card payments, WisePay also provides international payment options.

Working with our worldwide banking partner network, WisePay facilitates multiple-currency payment solutions in over 80 currencies.

This allows WisePay to present payments in the currency of choice for your parents and sponsors so that our schools with international students canalso have a transparent payment experience.

21

Comprehensive on-site training

Implementing new systems and processes can sometimes be a little daunting for staff. Also, it is important that all people involved have a clear understanding of why change is taking place and their role in that change.

Therefore, WisePay provides comprehensive on-site training on all our services. We have extremely experienced trainers who not only deliver first-class training sessions but can also advise and suggest best practice based on their hands-on knowledge.

Supporting schools

WisePay's Support Team are extremely knowledgeable and experienced.

They are always on-hand to help our colleges. Our Support Team are friendly and helpful and work closely with our customers to provide advice, as and when they need it.

23

The King's School, Canterbury

"The pre-registration solution serves its purpose: it is easy to use and intuitive. We are all busy, and it is so much simpler to be able to make payments quickly online, especially when parents are out of the country.

WisePay's software helps King's support the parents and sponsors, and it also makes our internal administration processes quicker and more seamless."

Graham Sinclair,
Registrar for The King's School, Canterbury

The King's School
Canterbury

BUILDING THE FUTURE

25

Getting started is easy

Sometimes change can be difficult. However, at WisePay we believe that small manageable chunks can make a big difference.

Independent Schools simply choose the WisePay Service they need, when they need it. Our schools often only start with one or perhaps two services and add others as they see the benefits.

Hand-holding our schools during implementation and providing support all the way.

Our company has over 20 years of experience helping organisations to digitise their administration processes and make them more efficient and provide a better experience for their parents, customers and sponsors.

We will share our knowledge, experience and software with your school.

Would you like to see a demonstration?

We would love to speak with you and understand what your school would like to achieve. We can show you demonstrations, discuss case studies and provide suggestions and advice. If you would like to book such a meeting please contact us via our website: **www.wisepay-software.com**
